NOVEMBER 2025

CANADIAN COPPER

Commodities that *electrify our world.*

ONLY MINE TO MILL IN NEW BRUNSWICK, CANADA

POSITIONING FOR NEAR-TERM COPPER AND ZINC PRODUCTION IN BATHURST, NEW BRUNSWICK, CANADA

DISCLAIMER

Forward-Looking Information and Statements

This presentation contains "forward-looking information" for purposes of applicable Canadian securities laws. Forward-looking information includes statements that use forward-looking terminology such as "may", "could", "would", "will", "should", "intend", "target", "plan", "expect", "budget", "estimate", "forecast", "schedule", "anticipate", "believe", "continue", "potential", "view" or the negative or grammatical variation thereof or other variations thereof or comparable terminology. Such forward-looking information includes, without limitation, statements with respect to the Company's expectations, strategies and plans for the Company's: expected costs, budgets, timing and results of planned and future exploration; estimated completion dates for certain milestones and the Company's plans; future operating performance and condition of the Company and its business, operations and properties, including resource growth and portfolio expansion; and any other statement that may predict, forecast, indicate or imply future plans, intentions, levels of activity, results, performance or achievements. Although the Company bases the forward-looking information contained in this presentation upon assumptions that it believes are reasonable, the Company cautions readers that actual results and developments (including its financial performance, financial condition and liquidity, and the development of the industry in which it operates) may differ materially from those made in or suggested by the forward-looking statements contained in this presentation. Despite a careful process to prepare and review the forward-looking statements, there can be no assurance that the underlying opinions, estimates and assumptions will prove to be correct. By their nature, forward-looking information and statements related thereto involve risks and uncertainties because they relate to events and depend upon circumstances that may or may not occur in the future. The Company believes that these risks and uncertainties include, but are not limited to, those described under "Risk Factors" in the Company's annual management discussion and analysis for the year ended October 31, 2023 and other filings of the Company with the Canadian Securities Authorities, copies of which can be found under the Company's profile on the SEDAR+ website at www.sedarplus.ca. The Company undertakes no obligation to update any of the forward-looking statements in this presentation or incorporated by reference herein, except as otherwise required by law. Accordingly, the reader is cautioned not to place undue reliance on forward-looking statements.

Technical Disclosure

Technical and scientific information relating to the Murray Brook Project contained in this presentation is derived from the technical report titled "Technical Report and Updated Mineral Resource Estimate of the Murray Brook ZN-PB-CU-AG Project New Brunswick Canada" (effective October 3, 2023) prepared by P&E Mining Consultants Inc, and filed on www.sedarplus.ca (the "**MB Technical Report 2023**"). The MB Technical Report 2023 is preliminary in nature and includes inferred resources that are too speculative geologically to have the economic consideration applied to them. There is no certainty that the MB Technical Report 2023 will be realized.

The Caribou Mine historical mineral resource estimates were derived from the technical report titled "Technical Report on the Caribou Mine, Bathurst, New Brunswick, Canada" dated May 31, 2018, effective December 31, 2017, (the "**Caribou Technical Report**"). The Caribou Technical Report was prepared by prepared by Roscoe Postle Associates Inc, under the supervision of Torben Jensen, Ian T. Blakley, Tracey Jacquemin and Shaun C. Woods for Trevali Mining Corporation and filed on www.sedarplus.ca. Mineral resources that are not mineral reserves do not have demonstrated economic viability.

The Caribou Technical Report historical resource estimate is based on prior data and reports obtained and prepared by previous operators, and information provided by governmental authorities.

a. a qualified person has not done sufficient work to classify the historical estimate as current mineral resources or mineral reserves.

b. the issuer is not treating the historical estimate as current mineral resources or mineral reserves.

Until mineral deposits are actually mined and processed, Mineral Resources must be considered as estimates only. Mineral Resource Estimates that are not Mineral Reserves have not demonstrated economic viability.

Establishing a current mineral resource estimate on the projects of the Company will require further evaluation, which the Company and its consultants intend to complete in due course.

Mr. Eugene Puritch, P.Eng., FEC, CET, President of P&E Mining Consultants Inc. and independent Qualified Person as defined in NI 43-101, has reviewed and approved the scientific and technical content of this presentation.

This presentation does not constitute an offer to sell or buy securities

This presentation does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there by any sale of the securities of the Company in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction.

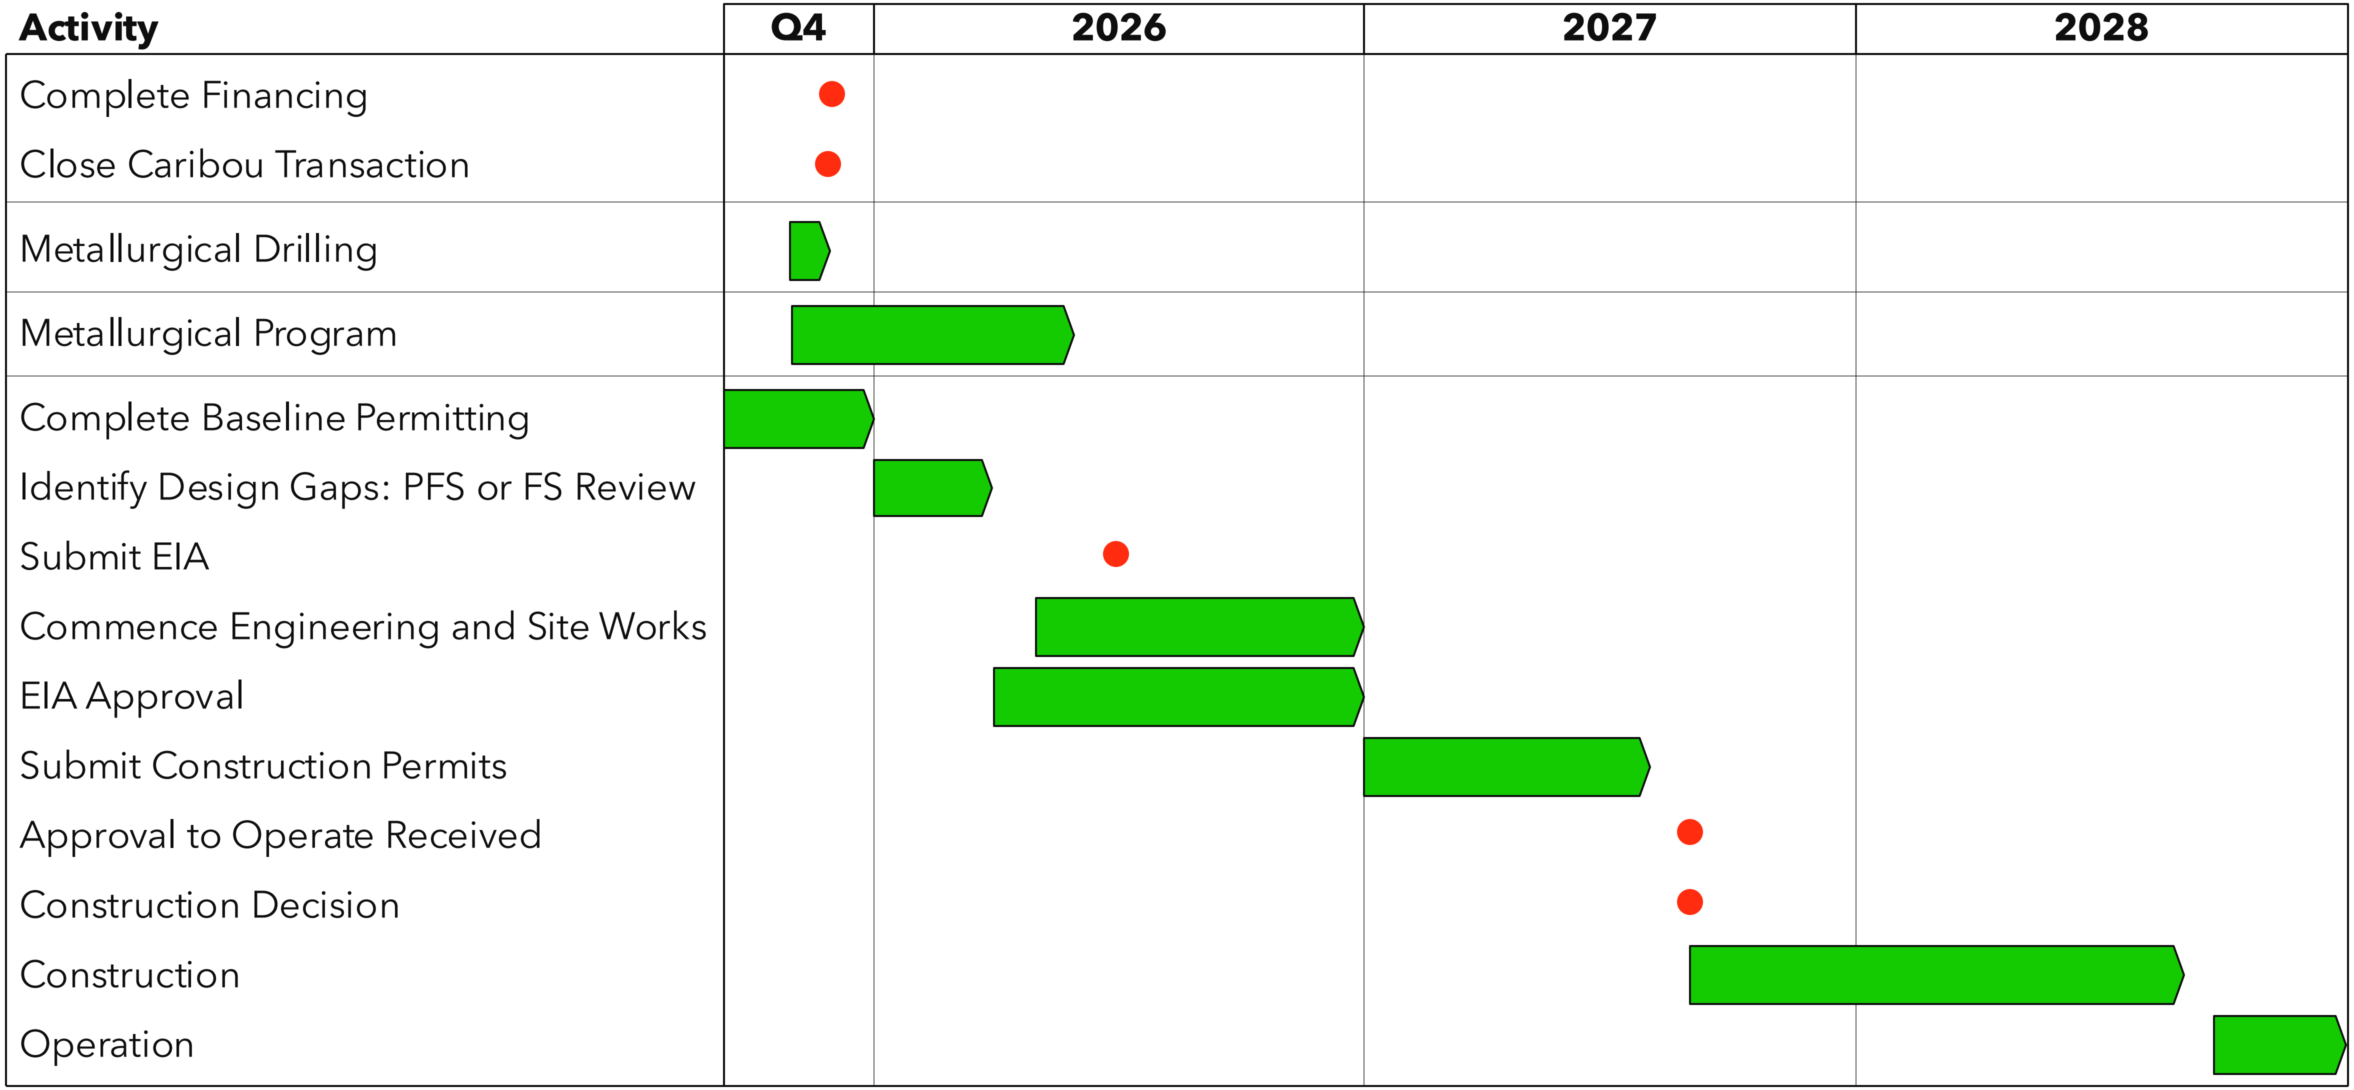
[1] US metal prices \$4.00/lb Cu, \$1.25/lb Zn, \$0.95/lb Pb, and \$23/oz Ag at \$0.76 USD/CAD.
[1] Process recoveries used were 80% Cu, 87% Zn, 75% Pb, 90% Ag, and 0% for Au.

CANADIAN COPPER

PATH TO DEVELOPMENT



MURRAY BROOK IS KEY TO CARIBOU INCREASING THROUGHPUT

CARIBOU OPERATION 2018-2019

2,500 TPD @ $35/T[1] PROCESSED

UG ORE DELIVERY CHALLENGES INCREASED COSTS

START/STOP OF MILL IMPACTED MAINTENANCE

UG ORE DELIVERY CHALLENGES IMPACTED COSTS

MURRAY BROOK ADVANTAGE

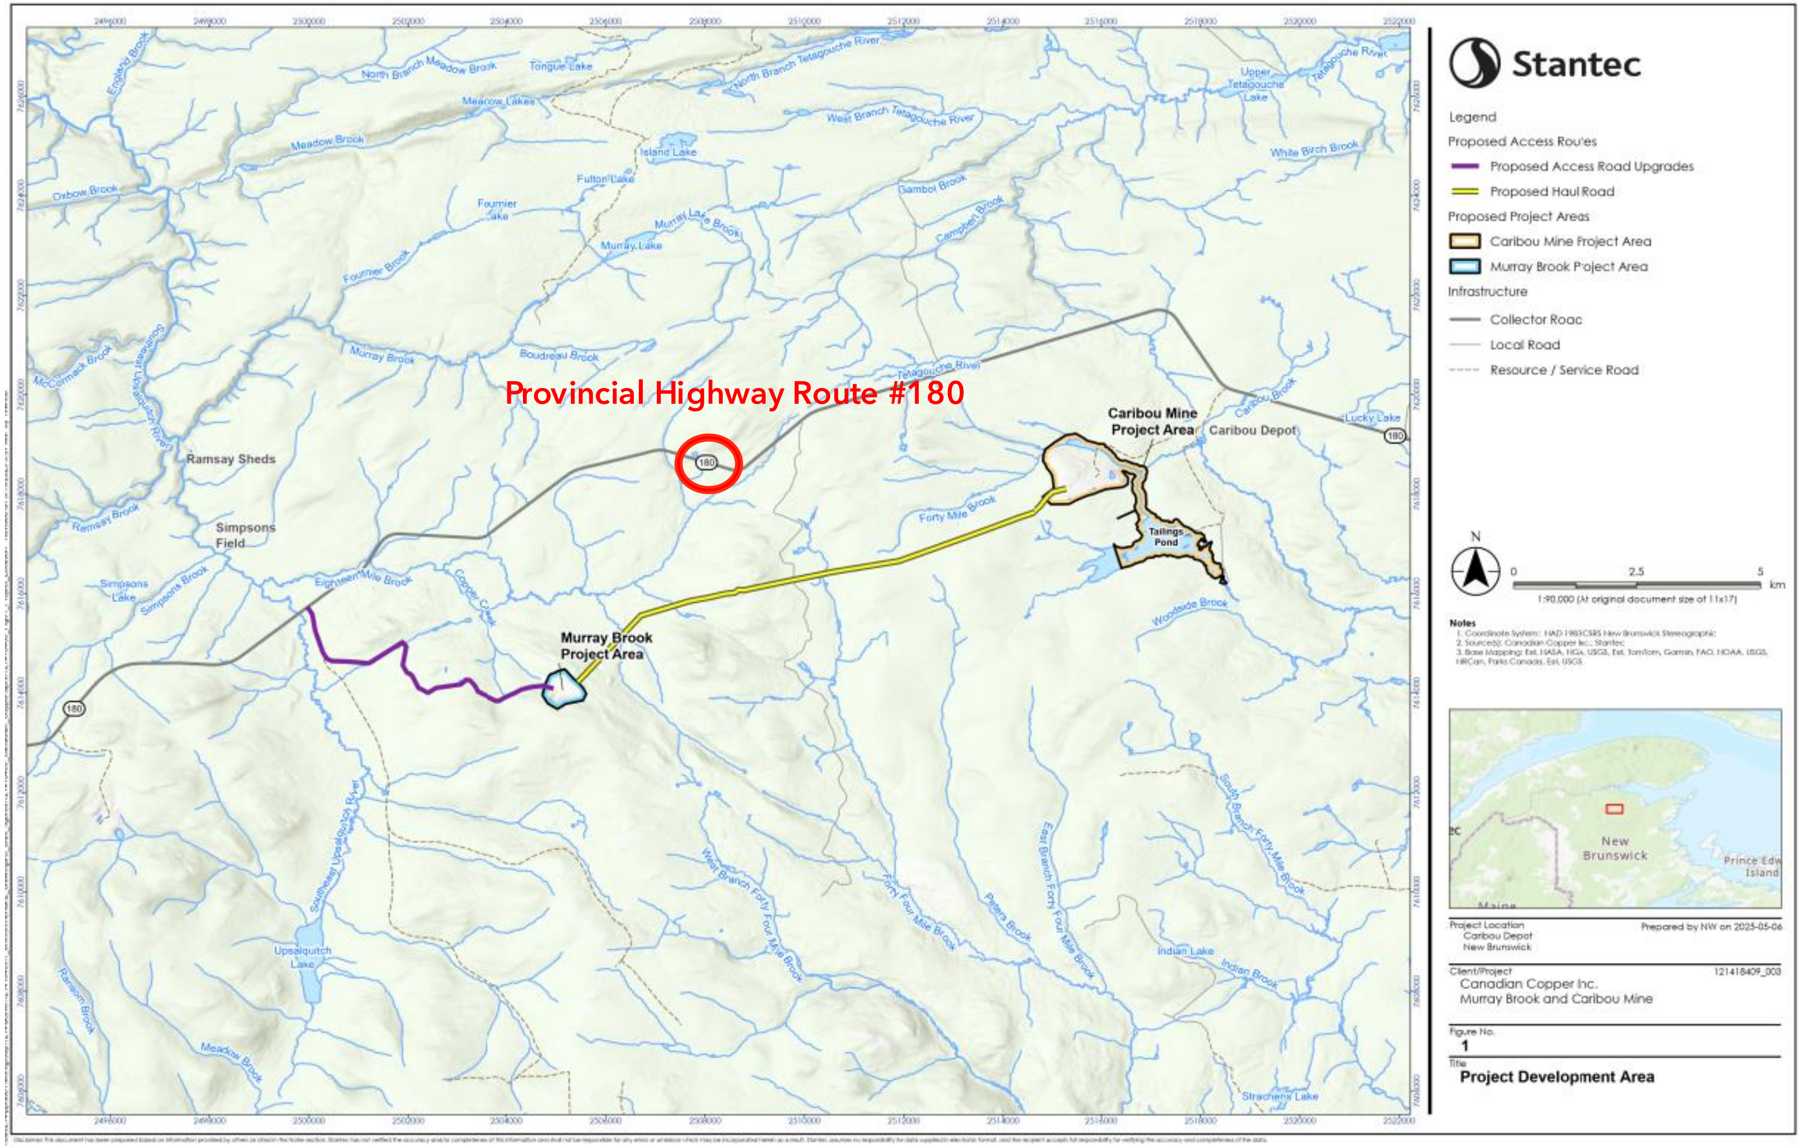
- ✓ OP ore reliable and reduces FX costs
- ✓ Improved mill operating performance
- ✓ Increased tailings capacity improves recover

3,300 tpd @ $31/t[1] processed

[1] Actual Caribou operating data adjusted for today's costs (2% inflation per year). Murray Brook June 2025 PEA Report.

PROPOSED ACCESS ROADS

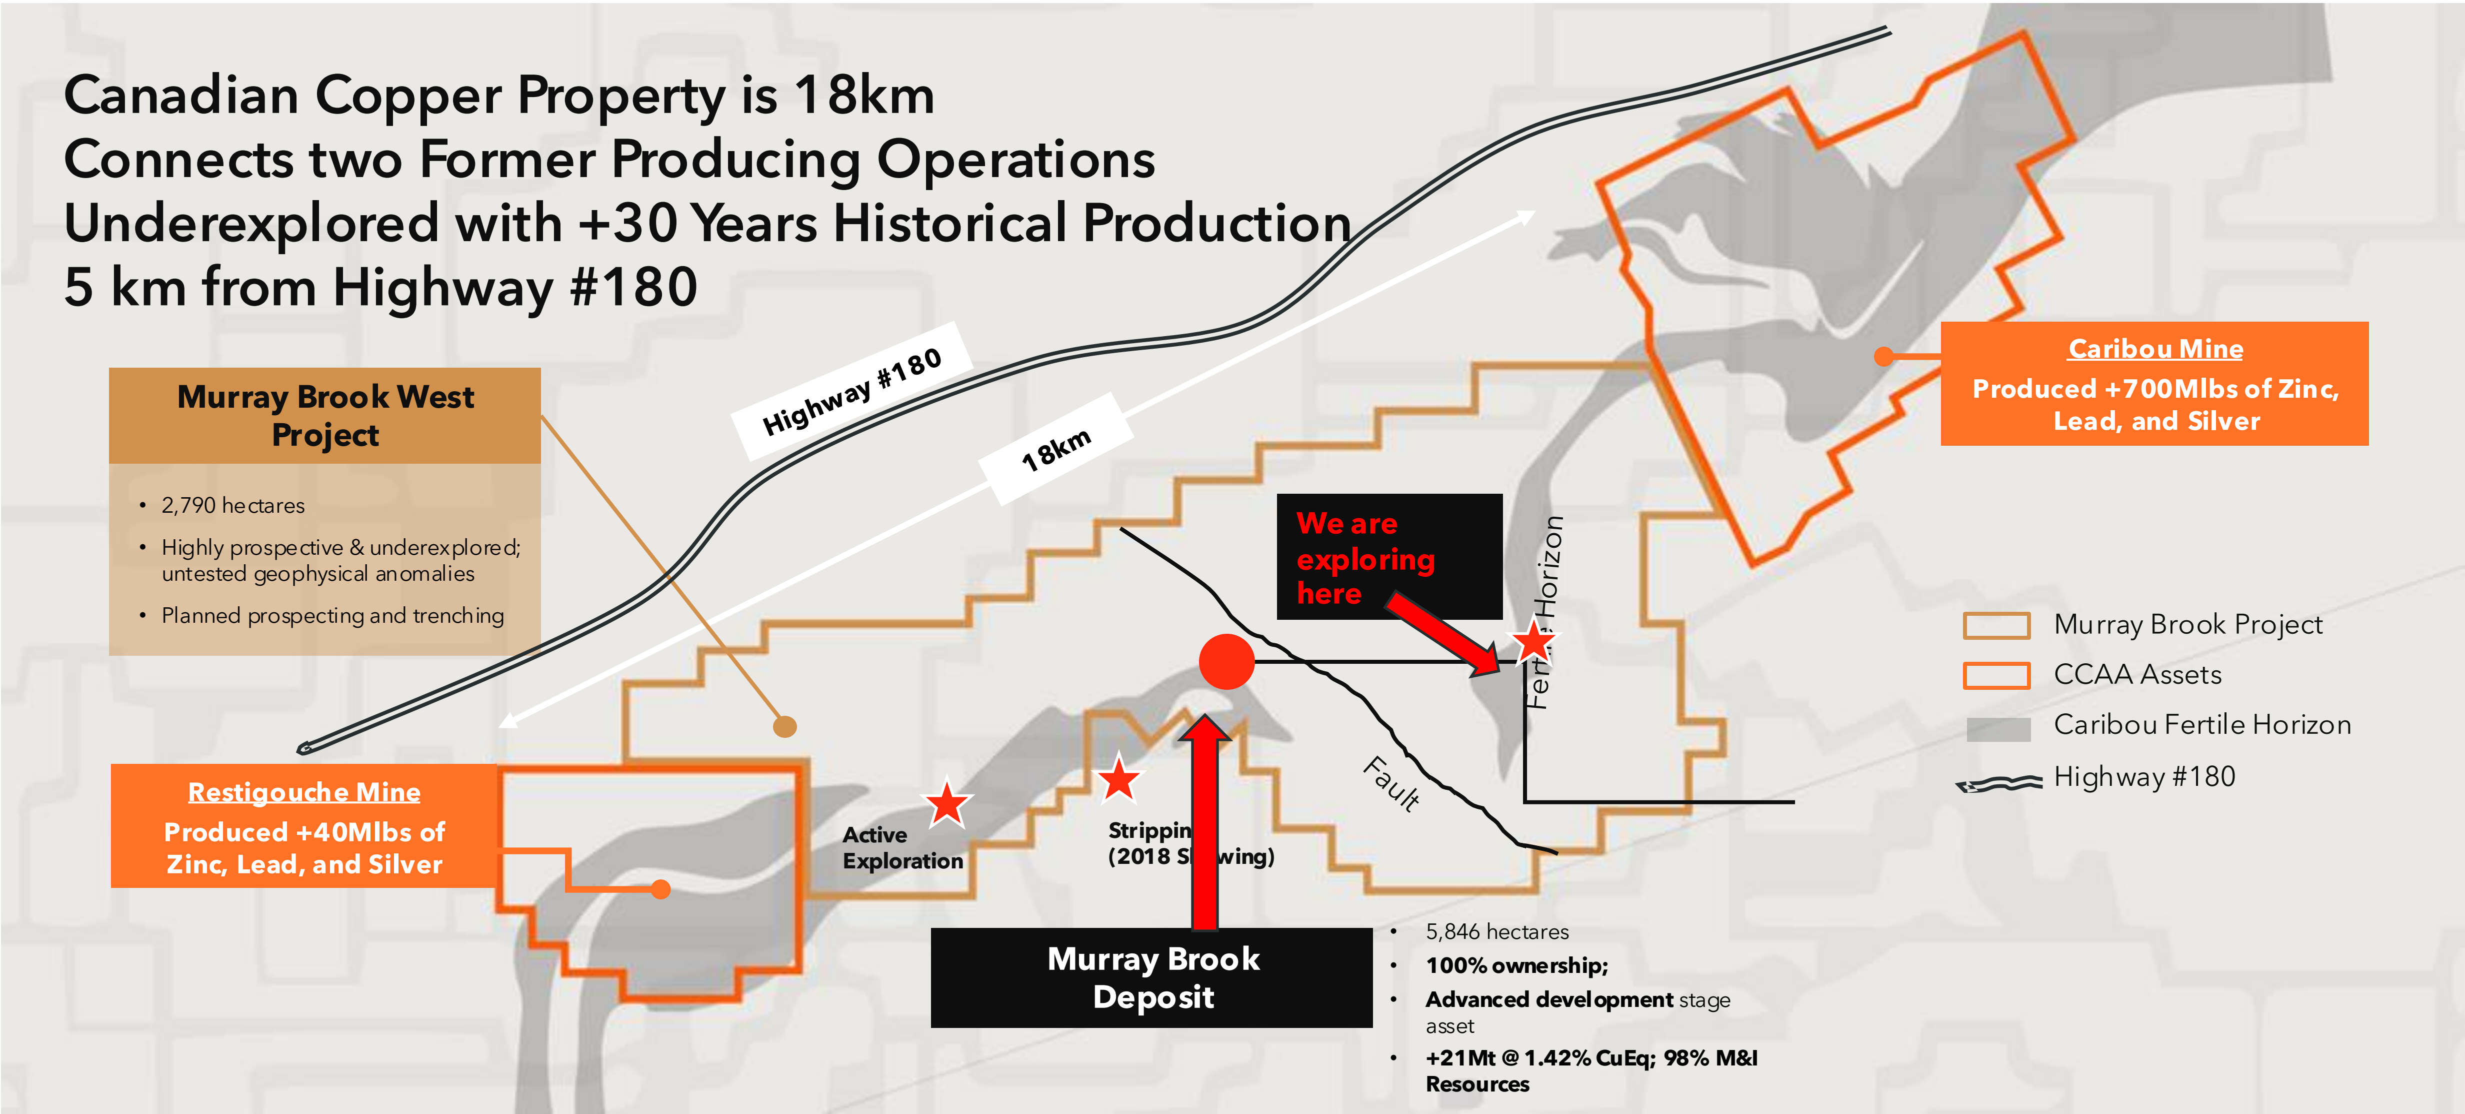
- Both previously disturbed sites
- Sites connected by Crown Land
- Town of Bathurst ~ 31 minutes by Car
- Development site entirely connected by Provincial Highway Route #180



CANADIAN COPPER

CARIBOU HORIZON TREND CONSOLIDATION

Canadian Copper Property is 18km
Connects two Former Producing Operations
Underexplored with +30 Years Historical Production
5 km from Highway #180



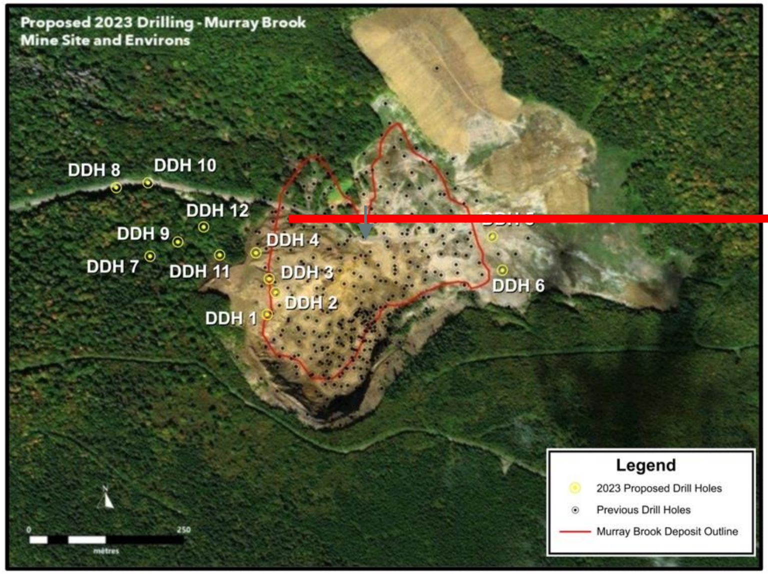
Murray Brook West Project

- 2,790 hectares
- Highly prospective & underexplored; untested geophysical anomalies
- Planned prospecting and trenching

Murray Brook Deposit

- 5,846 hectares
- **100% ownership;**
- **Advanced development** stage asset
- **+21Mt @ 1.42% CuEq; 98% M&I Resources**

MURRAY BROOK DEPOSIT DEFINING FURTHER EXTENSIONS



- **3000m drill program** planned testing extensions at the border of the 2023 MRE resource model and copper stinger zone (discovered 2019)[1]
- Copper stinger zone extends over **180m and to 170m at depth**
- Remains open along strike and at depth
- adjacent to the massive sulphide mineralization and corresponds to **a strong Megatem anomaly at depth**

[1]Copper-gold Rich Zone Of The Murray Brook Deposit" disseminated on Globalnewswire by Puma Exploration Inc. on January 21, 2018.

MOU WITH PABINEAU FIRST NATION

October 8th, 2024: Canadian Copper signed a non-binding Memorandum of Understanding with Pabineau First Nation

- ☑ The MOU aims to foster open communication and collaboration on mineral development opportunities in New Brunswick

- ☑ Creates mutual benefits, including job creation, contracting opportunities, and potential business partnerships for Pabineau First Nation

- ☑ Pabineau First Nation provides local land knowledge and strong networks, & we are committed to ensuring Pabineau First Nation benefits economically from future development

[1] See press release titled "Canadian Copper Signs MOU with Pabineau First Nation" dated October 8th, 2024.

MANAGEMENT TEAM

SIMON QUICK | CEO & DIRECTOR

Mr. Quick has more than 14 years as a well-regarded mining leader, spanning the USA, Mexico, Argentina, and Canada. His specific experience includes early stage permitting, project development through to design engineering, construction, and final turnover. Mr. Quick joins Canadian Copper from McEwen Mining Inc. where he was Vice President of Projects. He has an honours degree in Economics from Bishop's University and an Executive MBA from the Kellogg School of Management at Northwestern University.

ERIK H. MARTIN | CFO

Mr. Erik H. Martin is a CPA with over 32 years of experience in financial disclosure and management, primarily focused on publicly listed resource companies. Mr. Martin served as Chief Financial Officer for Votorantim Metals Canada Inc., the previous owner of the Murray Brook Project. Over the course of his career, he has held senior financial leadership positions supporting strategic planning, financial reporting, and corporate governance across the mining sector. Mr. Martin holds a Bachelor of Commerce in Accounting from the University of Québec at Rimouski and obtained his Certified Management Accountant (CMA) designation in 1996.

BRENT OMLAND | DIRECTOR

Mr. Omland brings 20 years of experience in mining, metals, and trading, with a strong focus on finance and executive leadership. As CEO of Ocean Partners Holdings Limited, he has been integral to the company's success as Chief Financial Officer and Director since 2013. Prior to joining Ocean Partners, he served as CFO for Ivernia Inc. and Enirgi Metals Group, leading finance functions for lead mining and smelting operations in Australia. Mr. Omland began his career with finance roles at Teck Cominco. A Canadian Chartered Accountant and graduate of the University of British Columbia.

BOARD OF DIRECTORS

ANDREW ELINESKY | DIRECTOR

As a finance professional, Mr. Elinesky brings over 20 years of experience as a CFO and senior financial leader for publicly traded companies in both Canada and the US. With a focus on corporate financings, M&A and integration experience, he was previously the CFO for Skylight Health Group Inc. and Reklaim Inc. Prior to that, Andrew was Senior Vice-President and CFO at McEwen Mining Inc. where he managed equity and debt financings of over $150M and multiple acquisitions. He also has held various senior leadership and treasury roles at Heinz UK, Diageo, and Worldcom UK. Andrew graduated from Oxford Brookes University, is a CPA in Ontario, and is Treasurer for the Canadian Network for the Prevention of Elder Abuse.

MARCEL ROBILLARD | DIRECTOR

Mr. Robillard became President and CEO of Puma in 2010. He is currently a Director of PEZM Gold Inc. (PEZM-H) and reviewing potential strategic acquisition opportunities in the green energy sector. From 1998 to 2007, Marcel held the position of Project Geologist and Project Manager at Géominex, a geology and exploration consulting Company, before taking on the role of President from 2007 to 2015. Marcel has a B.Sc. in Geology and an M.Sc. in Earth Sciences from the Université du Québec à Montreal, Canada.

ANDRE TESSIER | DIRECTOR

Mr. Tessier P.Eng, P.Geo., is a Professional Engineer and Geologist, involved in the mineral exploration and mining industry since 1989, including 16 years as Director, President and CEO of publicly traded Junior companies. Mr. Tessier started his career as Exploration Manager of the Quebec exploration office for Cominco Ltd in Noranda. He subsequently became geological consultant to the industry with clients from both the major and junior sectors in Canada, South and Central America and Central Asia. Mr. Tessier obtained his Engineering degree at Ecole Polytechnique in Montreal and his MSc in Economic Geology at Queen's University in Kingston. Mr. Tessier holds professional designations with Geoscientists of Ontario, Quebec, as-well as Professional Engineers of Ontario and Quebec.
